

Resume

M. Ed Educational Technology student, University of Delaware

Personal details

Name	Thembisile Buthelezi
Email address	sindiswathembisile18@gmail.com
Phone number	+1 302 610 1139
Address	6304 Sclar Dr, 19711 Newark

Education

Aug 2025 - Present	Master of Education (Educational Technology) University of Delaware, Newark
Feb 2025 - Dec 2025	Master of Education (Science and Technology) University of the Witwatersrand, Johannesburg
Feb 2024 - Dec 2024	Bachelor Of Education Honors (Science Education) University of Witwatersrand, Johannesburg
Feb 2023 - Dec 2023	Postgraduate Certificate in Education (PGCE) University of Stellenbosch, Stellenbosch
Feb 2016 - Dec 2020	Bachelor of Science (Genetics and Microbiology) University of the Free State, Bloemfontein

Relevant Experience

May 2025 - Aug 2025	Short-course Support Staff (Coding and Robotics) Wits Plus, University of the Witwatersrand, Johannesburg - Assisted educators with digital tools and unplugged coding activities to build computational thinking skills. - Prepared multimedia resources and digital teaching materials, ensuring smooth technical operation. - Collaborated in evaluating participant engagement and reporting outcomes.
Feb 2025 - Aug 2025	Coding & Robotics Tutor (Foundation phase Educators) University of the Witwatersrand, Johannesburg - Delivered tutorial support on foundational coding concepts, including unplugged coding, computational thinking, and age-appropriate digital tools. - Guided pre-service teachers in designing interactive lessons using Scratch Junior and OctoStudio to support early learning outcomes. - Provided practical training and feedback on integrating coding and robotics into Foundation Phase teaching using CAPS-aligned approaches.

Apr 2021 - Sep 2021

Web Development Intern

CAPACITI, Cape Town

- Gained practical experience in Python programming, completing both introductory and intermediate modules covering data types, control structures, and functions.
- Learned to structure and style web pages through HTML (basic and intermediate) and CSS, with attention to responsive design principles.
- Developed foundational skills in JavaScript and JavaScript ES6 (JSE) for adding interactivity to websites.
- Built a fully functional educational website project, integrating HTML, CSS, and JavaScript to demonstrate applied learning.
- Participated in collaborative coding tasks, peer reviews, and problem-solving activities in a training environment aligned with education technology goals.

Skills

Ed Tech & LMS: Canvas, Scratch Junior and OctoStudio

Content Development: Multimedia learning resources, interactive lessons, infographics

Web Tools: HTML, CSS, Python and JavaScript (foundational)

Soft Skills: Collaboration, communication, problem solving, innovation

Research: Qualitative & quantitative methods, data collection & analysis
